

CLIP STRIP BRACKET KIT

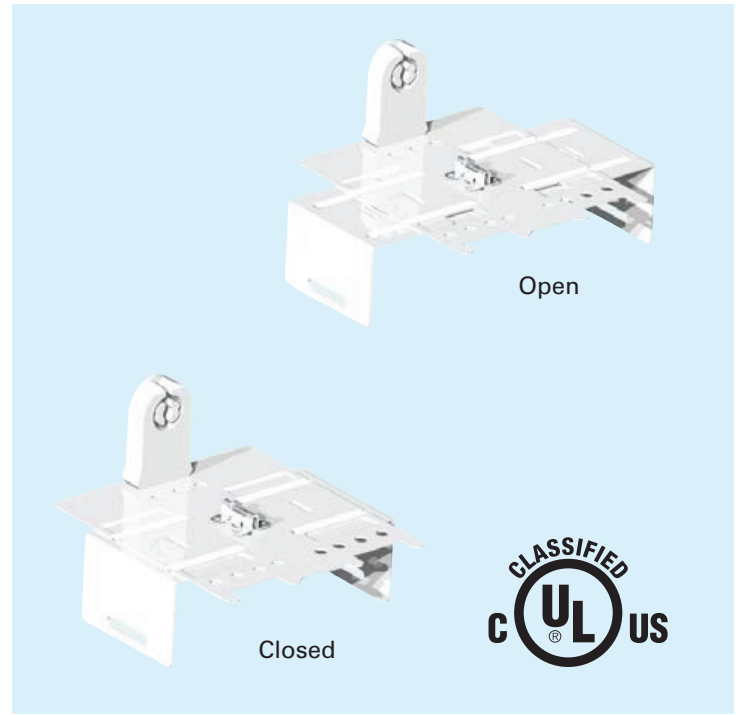

Description and Application

Envirobrite® Clip Strip Brackets adjust to any channel size between 4.00" and 5.25". It's common to have multiple channel widths within each facility. This patented clip strip allows flexibility for quicker installations without the need for dedicated bracket widths

- Rounded-edges to avoid injury during installation
- Adjustable width 4.00" Up to 5.25"
- Unique bracket design UL approved for no wire guard requirement
- Two, three or four lamp configurations
- Quarter turn slots for easy ballast cover or strip reflector maintenance
- Variable tek screw slot locations for multiple mounting options
- Slots, instead of holes, provided for easy alignment and centering
- Snap-in lamp holders won't fall out during overhead installation

Design

Envirobrite® brackets are designed by our expert in house lighting engineers for ideal lamp placement and trouble-free installation. Every Envirobrite® bracket is designed to meet UL 1598B specifications. Our rigid, light weight bracketing systems are produced with custom designed stamping dies and are very easy to install.

Standard Clip Strip Kit includes

- (1) flat bracket
- (2) angles
- (2, 4, or 6) specified shunted or unshunted high quality chemical resistant thermoplastic body UL approved lamp holders
- (3) tek screws
