

RSB - 1x4 Clip Strip and Static Brackets

DESCRIPTION & APPLICATION

The Envirobrite® RSB clip strip brackets ensure proper placement of the lamp to the retrofit kit to provide maximum efficiency. Many facilities have various channel sizes that remain unknown until the installers are actively retrofitting the odd sized fixtures. Envirobrite has developed our patented clip strip brackets to handle unknown or numerous different channel sizes

FEATURES & BENEFITS

- Aluminum components provide less maintenance and lasting appeal
- 100% recyclable
- Hard tooled rounded edge brackets for improved installer safety
- Utility rebate friendly
- Snap-in lamp holders won't fall out during overhead installation
- Streamlined packaging for easy job site material management
- Unique and patented "Adjustable Clip Strip" bracket is reversible for one, two, or three lamp configurations, and adjusts to any channel size between 4.0" and 5.25"
